

The Artemisian Ministry of Arts and Sciences Operational Handbook

January 2004

**Revised and Administered by
HE Juliana nic Lachlainn, OL OP
Kingdom Minister for the Arts & Sciences
And the Laurels of Artemisia**

Acknowledgements

This handbook is designed to help officers and entrants with organizing and participating in the Arts and Sciences within the Kingdom of Artemisia. We hope that this handbook will help the officer with their duties and will help to establish the criteria for entrants and judges so that each item may be entered in a competition is judged fairly and with as much compassion as possible. Entrants to competitions are highly encouraged to read this section thoroughly so that all will have a good understanding of what is to come in the future.

This section could not have been possible without the following individuals:

Mistress Rowena of Avalon, OL. – Compiler and publisher of the first Artemisian Criteria

Hachmood K. Braden von Sobernheim, OL. – Fellow compiler and exceptionally willing to help out on those mind-boggling questions at all times of the day.

Lady Eden Blacksmith – Gave us blanket permission to copy parts of the Atenveldt Officer's Handbook and parts of their original Arts and Sciences Officer's Handbook thus saving us from having to reinvent the wheel.

All the Laurels of Artemisia – For allowing me to fill their inboxes with endless questions and helpfully responding with input and comment.

This handbook was constructed and compiled with Microsoft Word 2000, Classic Coca-Cola, diverse listening material on CD, duct tape, and kitty distracters! All artwork courtesy of those wonderful people at "A Feaste for the Eyes" at www.godecookery.com.

*Done this 13th day of March, A.S. XXXVIII,
being 2004 in the Common Era*
